DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-27 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Langer et al., 6,004,295, for the same reasons as stated in Office action dated March 20, 2002.

Response to Arguments

Applicant's arguments filed June 26, 2002 have been fully considered but they are not persuasive.

Applicant argues that Langer does not expressly or inherently describe that either jaw of the mechanical scissor-style pivoted handle (48) may be secured in pivotal relation to either a syringe barrel or a syringe plunger. Applicant further argues that since one jaw of the handle (48) in Langer is secured to an operation wire (40) which is in turn connected to a plunger (38), Langer lacks any express or inherent description of a handle which includes a member configured to be secured in pivotal relation to a syringe plunger as claimed by Applicant.

In response, Examiner reasserts that handle (48) is pivotally connected to the plunger and syringe barrel. Langer describes the scissor-type assembly (48) in column 4, lines 40-45. Also, as seen in Figure 7A, and as described in column 6, lines 53-60, Langer discloses a "mechanical scissors-style pivoted handle 48', one jaw of which is connected to operator wire 40 and the other to catheter 54, for relative movement thereof on pivoting handle 62..." Moreover, in Examiner's rejection, member (40) is considered to be a part of the plunger. Thus, Langer discloses a handle that is pivotally connected to a plunger and syringe barrel.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
